10 **DURAND-EASTMAN PARK TRAIL INFORMATION**

DURAND LAKE TRAIL This trail is a moderate 1.2 mile walk over rolling hills. (Narrow sections, some small but rather steep hills and large, exposed roots give this walk a moderate rating). This trail although similar to the one around Eastman Lake, is more rugged and has a feeling of wilderness about it.

TROTT LAKE TRAIL This trail is an easy to moderate 0.5 mile walk over small rolling hills. Be aware, some portions of the trail are narrow with steep sides.

EASTMAN LAKE TRAIL This trail is an easy 1.5 mile walk over gently rolling terrain, and is spectacular in any season.

SIDE TRIPS Consider a walk through the Arboretum. The Pinetum, along Pine Valley Road, is a world-class collection of coniferous trees. Zoo Road is great for birding all year. Stop and enjoy the views of Lake Ontario along the way!
